

Triobike Service

Reconnecting older people with their communities

Triobikes are battery-assisted trishaw cycles operated by volunteer pilots who can take older people out for a spin in the fresh air... people who might not otherwise see the sights and sounds of their neighbourhoods in this way.

So whether we are riding down Cleethorpes Promenade to see the sights or exploring one of our beautiful local parks, you can be sure we will stop along the way for refreshments.

Come and Join Us!

Call to book your free place on the next ride.
